Suet is raw beef or mutton fat, especially the hard fat found around the loins and kidneys. It has a melting point of between 45° and 50°C. Its high smoke point makes it ideal for deep frying and pastry production.

Vegetarian Alternative

Vegetable suet is made from fat such as palm oil combined with rice flour. It resembles shredded beef suet, and is used as a vegetarian substitute in recipes.

Suet is usually used in the making of dumplings, pies, pastries and puddings.
